Great Southern Regional Trails Master Plan

What is it & why do we need one?

It will produce concept plans for three priority regional projects

What is a **Regional Trails** Master Plan?

A document that builds on the Albany Trail Hub Strategy to identify a regional network of trail towns and trail centres

A critical tool in budget planning for trail development

Where are we now?

Lack of trails & significant trail gaps

Growing demand from residents and visitors

varying quality, type and length

Very few equestrian, cycling, off-road vehicle, or aquatic trails (snorkelling, diving, kayaking/canoeing)

Very few looped trails and/or trail networks

Currently, only the City of Albany has a Trails Hub Strategy

Where do we want to be?

World Class Trails Destination

Provide a range of trail experiences suited to different user groups, for residents & visitors

Potential to attract both national and international trail events
